

MARIJUANA HEMP PARTY

BETTER HEALTH + BETTER NUTRITION + BETTER POLICING + BETTER BUDGETS

The Marijuana HEMP Party has a plan to integrate the whole plant into our everyday lives for medicine, food security, the environment and social harmony.

FOOD better protein than beef

FUEL cleaner energy than crude oil

FIBRE stronger textile than cotton

MEDICINE safer effect than pharmaceuticals

RECREATION healthier choice than alcohol

Cannabis as medicine and therapy could reinvent the health system.

Currently we waste millions of tax-payer dollars trying to enforce prohibition.

Complete protein and polyunsaturated fats are an essential part of our diet.

A regulated market would redirect funding to education, health and harm reduction.

The hemp plant can address environmental concerns on CO² levels and soil reparation.
